

HOW SECURE IS YOUR FUTURE?

By Denny McBroom, Husband of Inner Circle SrNSD Linda McBroom

Since the early 1980's, corporate America has been solving their financial problems through layoffs. Starting in 2004, they have started solving financial problems by reducing or eliminating employee pensions and/or benefits.

We must realize that other than the Mary Kay NSD pension plan, most other pension plans are at risk. There is irrefutable evidence that Mary Kay Cosmetics is one of the most solid and prosperous companies in America.

We should encourage all Consultants and Husbands to look toward the future to emphasize the need for establishing NSD as a long-term goal to secure their family's future.
